

HELP SAVE THE LIFE OF SOMEONE LIKE RIK

Every 20 minutes, someone finds out they have a blood cancer, such as leukaemia. And for many, a blood stem cell transplant is their only chance.

Currently only 4% of donors on the Anthony Nolan Register are Asian. The Rik Basra Campaign aims to help more people beat blood cancer by increasing this number.

Join the register today at www.anthonynolan.org/spit or come along to a recruitment event. You could give someone the chance of life.
